

DbProtect™ New DISA STIG Compliance Pack

DbProtect's DISA STIG Compliance Pack helps agencies and contractors continuously check compliance posture against the DISA STIG for databases, enabling a quicker, more efficient, end-to-end audit process.

DISA STIG REGULATION MAPPING

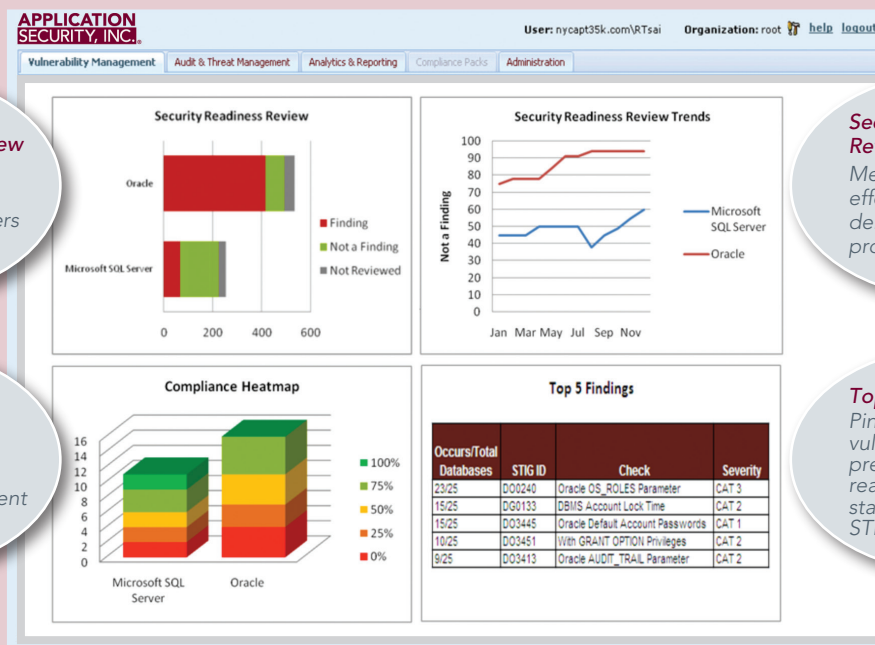

Eliminate manual processes and cut down the time to compliance by pinpointing the specific STIGs affected by the compliance assessment. The DISA STIG Compliance Pack maps detailed security configuration and vulnerability checks against the latest DISA STIG database checklists and against the DoD's Information Assurance (IA) controls.

FEATURES

- Powerful dashboards provide a bird's eye view of compliance readiness
- Drill down capabilities offer access to detailed reports
- Access to updates keeps the DISA STIG checklists current
- All results presented using DISA STIG language
- Built-in translation eliminates the tedious manual mapping of DbProtect checks to DISA STIG identifier
- Healthcare specific reports support the DoD TRICARE program

Compliance Readiness

Applicable to all DoD agencies and contractors for FISMA compliance, the DISA STIG Compliance Pack offers powerful reporting and analytics to help boost DISA STIG compliance efforts:

Security Readiness Review
Provides an overview of the security readiness across all database servers

Compliance Heatmap
Understand the level of non-compliance across your database environment

Security Readiness Review Trends
Measure your compliance efforts over time to demonstrate compliance progress

Top 5 Findings
Pinpoint the top vulnerabilities that are preventing you from reaching compliant status. See exactly which STIG is in violation

ABOUT APPLICATION SECURITY, INC. (APPSECINC)

AppSecInc is a pioneer and leading provider of database security and compliance solutions for the enterprise. By providing strategic and scalable software-only solutions – AppDetectivePro for auditors and IT advisors, and DbProtect for the enterprise – AppSecInc supports the database lifecycle for some of the most complex and demanding environments in the world across more than 1,300 active commercial and government customers.

Leveraging the world's most comprehensive database security knowledgebase from the company's renowned team of threat researchers, TeamSHATTER, AppSecInc products help customers achieve unprecedented levels of data security while reducing overall risk and helping to ensure continuous regulatory and industry compliance.
